Education

BSc. in Computer Engineering, Ain Shams University (2018 – 2023)

Projects

React Portfolio (v1) [🔗](#)

- Built a React-based portfolio using **hooks**, **components**, and **debouncing** for optimized performance
- Integrated **Intersection Observer** & **Framer Motion** for custom animations and section detection
- Used **Formspree** for serverless form handling; ensured full responsive design

React Portfolio (v2) [🔗](#)

- Using **Tailwind CSS**, improving **UI architecture** for scalability and maintainability supporting **themes**
- Enhanced **performance** and user experience with optimized rendering and smoother interactions

React&Tailwind Template [🔗](#)

- Rebuilt portfolio using **Tailwind CSS** and **React** for faster styling & development
- Added **dark mode**, interactive elements, and improved **UI consistency**
- Focused on **utility-first design** and **scalable components**

Bakeora – Bakery Website

- Built a **React** website with **React Router v6** featuring **nested routing**, **search**, and **hash-based navigation**
- Designed a **TailwindCSS**, **responsive UI**, and a dynamic **blog section**
- Developed **reusable components** for scalable, maintainable frontend architecture

Interactive JavaScript Projects (2)

- Developed interactive web apps showcasing **DOM manipulation**, **event handling**, and core JavaScript logic
- Focused on enhancing **user interaction** and creating dynamic experiences
- Live deoms: [Link1](#) [🔗](#) | [Link2](#) [🔗](#)

HTML/CSS Foundations (3) [🔗](#)

- Built **static and responsive pages** demonstrating layout, styling, and accessibility principles
- Following with **Bootstrap** project to speed up development and ensure consistency
- Live Demo > [First](#) [🔗](#) , | [Second](#) [🔗](#) , | [Bootstrap](#) [🔗](#)

React Mini-Projects (15+) [🔗](#)

- Built apps including **API integrations (Axios)**, **canvas drawing tools**, **mini-games**, and UI components
- Practiced **hooks**, **state management**, and **modular component design** across projects
- Notable apps: [ToDoList](#) [🔗](#) , [Cryptocurrency](#) [🔗](#) , [Domain Finder](#) [🔗](#) , [Pain App](#) [🔗](#) , [Wordle Game](#) [🔗](#)

Skills

Frontend:

HTML5, CSS3, JavaScript, TypeScript, React.js, Sass, Pug, Bootstrap, Tailwind CSS

Tools:

Git, GitHub, npm, Figma/Canva, DevTools

Backend / Data

MySQL, Data Structures, OOP

Soft Skills:

Problem Solving, Communication, Adaptability, Time Management, Attention to Detail
